Gitlab CI/CD

Languages

English – Native Speaker

German – C2

French – C1

Spanish – B1

A reliable and ambitious full-stack developer with DevOps and project management experience. I'm passionate about people and languages (both human and programming) and want to work in a diverse team creating sustainable, meaningful products.

Experience

Full Stack Web Developer, *Tecvisor* (previously *Teclead*), Berlin GE
AUG 2021- PRESENT
- Managed a dev team of three, empowered my team to work together and confidently share ideas through regular stand-up meetings. Created and prioritised kanban tasks for projects
- Fullstack development on two different projects using Angular, TypeScript, webpack, node.js, jquery, among many other technologies
- Used Jest to write tests for 70+% of the frontend code
- Quickly self-taught DevOp technologies (AWS-CDK, K8s, Docker, Gitlab-CI/CD) to ensure continuous delivery
- Created automatic testing, linting, build and deployment pipelines for the project

Marketing Internship, *Sandhills East,* Manchester GB
NOV 2019 – MAY 2020
- Managed three French social media accounts, creating content for our customers
- Updated customers in English, French and German on new services and resolved account problems and to set up new magazine subscriptions
- Collaborated in person and remotely with three international teams to implement marketing strategies

English Language Assistant, *Gesamtschule Hardt,* Mönchengladbach GE
SEPT 2018 – MARCH 2020
- Independently managed and taught an after-school club to prepare 9 students for a TELC examination. 100% students passed the qualification with expected grades or higher.

Projects

JobArena - project by *Tecvisor*
- A tech-recruitment platform, offering screen-capturing, live chat and much more
- Team Lead - prioritising communication and enabling all members to share ideas
- Stack: Angular, Scss, Jest, Git, , npm, Nest.js, Socket.io
- DevOps Stack: AWS, AWS-CDK, K8s, Docker, Gitlab CI/CD

FindUnity   GitHub Repo – Deployed Site
- An app with full CRUD features connecting yoga instructors with students, finished within five days in a team of two
- 6 Technologies: HTML, CSS, JavaScript, Node.js, Express, MongoDB

Lingo Fish   GitHub Repo – Deployed Site
- A smart language learning platform, allowing users to read authentic texts, get direct translations and study vocabulary sets
- 8 Technologies: HTML, CSS, JavaScript, Node.js, React, Express, MongoDB, Tailwind

Education

Full-Stack Web Development Bootcamp, *Ironhack, Berlin GE*
MARCH 2021 – MAY 2021
- 9-week intensive web development bootcamp
- Created front-end projects using HTML, CSS, JavaScript (ES6) and React
- Built back-end projects using MongoDB, Express.js, Node.js

Integrated Professional Master in Languages (French and German)
University of Manchester, Manchester UK   First Class (Hons)
SEPT 2014 - JULY 2020
- Modules included translation, linguistics, history, politics and literature of French and German-speaking countries
- Initiated and coordinated French speaking activities for students to facilitate language learning
